

## **The Warrens Missionaries to Haiti, Jamaica and Belize**

Don and Suzy Warren's life changed dramatically in 1993 when God took control. Their powerful testimony has been seen on television by millions nationwide and was included in Dr. D. James Kennedy's book *Led by the Carpenter*. A year after his conversion, God called Don to the mission field of Haiti. Already active in Evangelism Explosion, he began to spread the Gospel in Haiti without any outside financial support.

He worked with existing ministries, helping with their ongoing projects so he could introduce them to the explosive ministry of EE. His main focus has been to train national pastors and key lay people to be able to share their faith and to train others to do the same. God has used Don in a powerful way to train thousands of people all across Haiti and the Dominican Republic. Up until 1999, Don and Suzy worked multiple jobs to support their outreach into Haiti as "tent-making" missionaries. At the outset of the new millennium, EE International named Don to be the Area Director for Haiti, Jamaica, and Belize, which called him into full-time ministry.

Besides being active in EE, Don and Suzy are Clinic Teachers of KIDS EE, which they have taken to countries around the world including Haiti, Jamaica, Belize, Albania, Indonesia, Greece, Slovenia, Italy, and Southern Sudan.

Don and Suzy have two daughters, Breven who is attending university and Braman who is home-schooled.
